RESUME OBJECTIVE

- 10+ of experience facilitating cutting-edge engineering solutions with a wide range of software technology skills
- Proven ability to leverage full-stack knowledge and experience to build interactive and user-centered website designs to scale
- Extensive expertise in large system architecture development and administration including sectors like banking, money transfer, pension systems, micro credits

SKILLS

| | | | | |
|-------------|--------------------|------------------|----------------|-------------------------|
| NodeJS | Java/J2EE | ExpressJS/Apache | Bash / Shell | MySQL/Postgress/MongoDB |
| Restful API | Html/Css/Bootstrap | Scrum Master | Eclipse/VSCode | Linux Operating System |

EXPERIENCE

SCRUM MASTER / TECH LEAD

Axiem International / General Electric partner / Querétaro, Qro. / January 2019 - Present

- Structure internal systems comprising several tools for displaying performance of aircraft engines, as well as design jobs for management of data generated by sensors installed in those engines
- Successfully designed and implemented backend infrastructure as REST APIs built in NodeJS to handle incoming transactions from the sensors installed on the engines
- Leading and coaching the organization in agile methodology adoption. Coaching the Development Team in self-organization and cross-functionality

TECH LEAD / SENIOR PROGRAMMER

Telefónica Movistar / México, cdmx / April 2016 – November 2018

- Successfully generated back-end programming utilizing Java Servlets; Linux (CentOS 5/Redhat), Apache Tomcat, CSS, JavaScript/jQuery, and MySQL frameworks
- Provided leadership as a subject matter expert (SME) on client and staff logins, and general upgrades/maintenance of platform
- Implemented platform for controlling access of providers to carrier's main charging system on value added services
